Is this a second ADR request? ☐ No ☐ Yes Specific ADR requested _____%, for the years _____.

(Note: Requests for an additional ADR will need to address why the jurisdiction's efforts to meet 50% by the end of the first ADR period were not successful.)

Note: Extensions may be requested anytime by a jurisdiction, but will only be effective in the years from January 1, 2000 to January 1, 2006. An original request for a TE/ADR may be granted for any period up to three years and subsequent requests for TE/ADR may extend the original request or be based on new circumstances but the total number of years for all requests cannot total more than five years or extend beyond January 1, 2006.

Section IIIA—TIME EXTENSION

Within this section, discuss your jurisdiction's progress in implementing diversion programs that were planned to achieve 50%. Provide any additional information that demonstrates "good faith effort." The CIWMB shall determine your jurisdiction's progress in demonstrating "good faith effort" towards complying with AB 939. Note: The answers to each question should be comprehensive and provide specific details regarding the jurisdiction's situation.

Attach additional sheets if necessary—please reference each response to the appropriate cell number (e.g., IIIA-1).

- 1. Why does your jurisdiction need more time to meet the 50% goal? Describe why SRRE selected programs did not achieve 50% diversion. Identify barriers to meeting the 50% goal and briefly indicate how they will be overcome.**

The City has currently achieved 80% of its SRRE goals and requires the additional time to implement the remaining 20% of our planned programs. The primary barriers in attaining the goal have been due to the considerable community resistance, types of recommended program presented, and the fact that the City only controls 75% of our waste stream. Additional time is required to allow the City time to implement extensive educational programs to increase community awareness and participation.

- 2. Why does your jurisdiction need the amount of time requested? Describe any relevant circumstances in the jurisdiction that contribute to the need for a Time Extension.**

Sufficient time will be required to expand, construct and implement new programs and facilities.

The City will require additional facilities and contracts to achieve the attached "SB 1066 Correction Plan" in order to meet AB939 50% diversion goals.

- 3. Describe your jurisdiction's Good Faith Efforts to implement the programs in its SRRE.**

Over the course of the last eleven years the city has attempted to implement numerous strategies including three failed attempts to site and construct a transfer station. More specifically a curbside recycling program implemented in 1990, completed a solid waste generation study in 1991, implemented compliance strategies to comply with AB939 in 1992. AB939 Joint Planning MOU entered into with all Fresno County Cities in 1993, in 1994 the City of Fresno adopted the SRRE, HHWE, and NFE. From 1995-1999 the city researched and conducted pilot programs for green waste and other solid waste recycling program alternatives. In 2000 the city converted to once-a-week collection and implemented the three 96-gallon cart recycling program.

- 4. Provide any additional relevant information that supports the request.**

In January 2002 the City Council approved the SB1066 Time Extension Correction Plan. City staff believes that the time extension and the opportunity to implement the selected programs, will allow the City of Fresno to maximize the opportunities to achieve the 50% diversion goal.

Section IIIB—ALTERNATIVE DIVERSION REQUIREMENT

Within this section, discuss your jurisdiction's progress in implementing diversion programs that were planned to achieve 50%. Provide any additional information that demonstrates "good faith effort." The CIWMB shall determine your jurisdiction's efforts in demonstrating "good faith effort" towards complying with AB 939. Note: The answers to each question should be comprehensive and provide specific details regarding the jurisdiction's situation.

Attach additional sheets if necessary—please reference each response to the appropriate cell number (e.g., IIIB-1.).

1. Why does your jurisdiction need an Alternative Diversion Requirement? Describe why SRRE selected programs did not achieve 50% diversion. Identify barriers to meeting the 50% goal and briefly indicate how they will be overcome.

2. Why is your jurisdiction requesting an Alternative Diversion Requirement in lieu of a Time Extension?

3. Describe your jurisdiction's Good Faith Efforts to implement the programs in its SRRE.

4. Describe any relevant circumstances in the jurisdiction that contribute to the need for an ADR. Provide any relevant information that supports the request.

Section IV A—PLAN OF CORRECTION

A Plan of Correction is required by PRC Section 41820(a)(6)(B). The plan is fundamentally a description of the actions the jurisdiction will take to meet the 50% goal by the expiration of the Time Extension.

Attach additional sheets if necessary.
